EXPERIENCE

Academic Projects & Team Collaboration

- **Flower Shop Website (Team Project)**
 - Collaborated with team members to design and develop a responsive Flower Shop website using HTML, CSS, and JavaScript. Contributed to the user interface design, page layout implementation, and frontend development to create an engaging and user-friendly experience.
- **Appointment Platform (Team Project).**
 - Worked as a Frontend Team Member in the development of an Appointment Platform using HTML, CSS, and JavaScript. Responsible for implementing responsive user interfaces, developing web pages, and collaborating with team members to ensure a seamless user experience.
- **Restaurant Ordering and Management System (Academic Team Project)**
 - Served as a Full-Stack Developer in the development of a Restaurant Ordering and Management System. Developed responsive user interfaces using HTML, CSS, JavaScript, and Bootstrap, while implementing backend functionalities with Java and Spring Boot. Designed and managed the database using MySQL to support data storage and retrieval. Collaborated with team members in system analysis and software design, contributing to project documentation including text descriptions, domain models, class diagrams, and sequence diagrams. Participated in the complete software development lifecycle, from planning and design to implementation, testing, and deployment.
